Ministero per i beni e le attività culturali

Istituto centrale per il catalogo unico delle biblioteche italiane
(ICCU)

*Budapest, 22 June 2011
National Széchényi Library*

The Digital Agenda

Priorities of the Digital Agenda and the cultural heritage

- Massive digitisation and online access to museum, libraries, and archives cultural heritage
- License negotiation with publishers to access online copyrighted material
- Identification of orphan works or out-of-print works
- strategies for long term preservation to be implemented by Member States at national level
- Creation of an infrastructure dedicated to digital cultural heritage

Preservation

- The preservation of digital master copies of cultural materials is an institutional task of the States, carried out by national libraries or by other public institutions under the direct responsibility of governments
- Publishers can benefit for the preservation of born digital material provided by public institutions

Copyright

Crucial matter:

- Need to avoid the 20 century gap in digital material: necessity of negotiating licences with publishers to access online copyrighted material
- Seeking balance between the rights of actors in the book chain and those of libraries
- Identification of orphan works or out-of-print works. ARROW plus project works to identify rights holders and to clarify the rights status of works, both orphan or out-of-print (www.arrow-net.eu)

PPP for mass digitisation

Public-private partnerships are an instrument for the production of a critical mass of digital content (e.g. Google agreements)

But

National investments are needed for preservation and online accessibility of the digitised resources in national portals

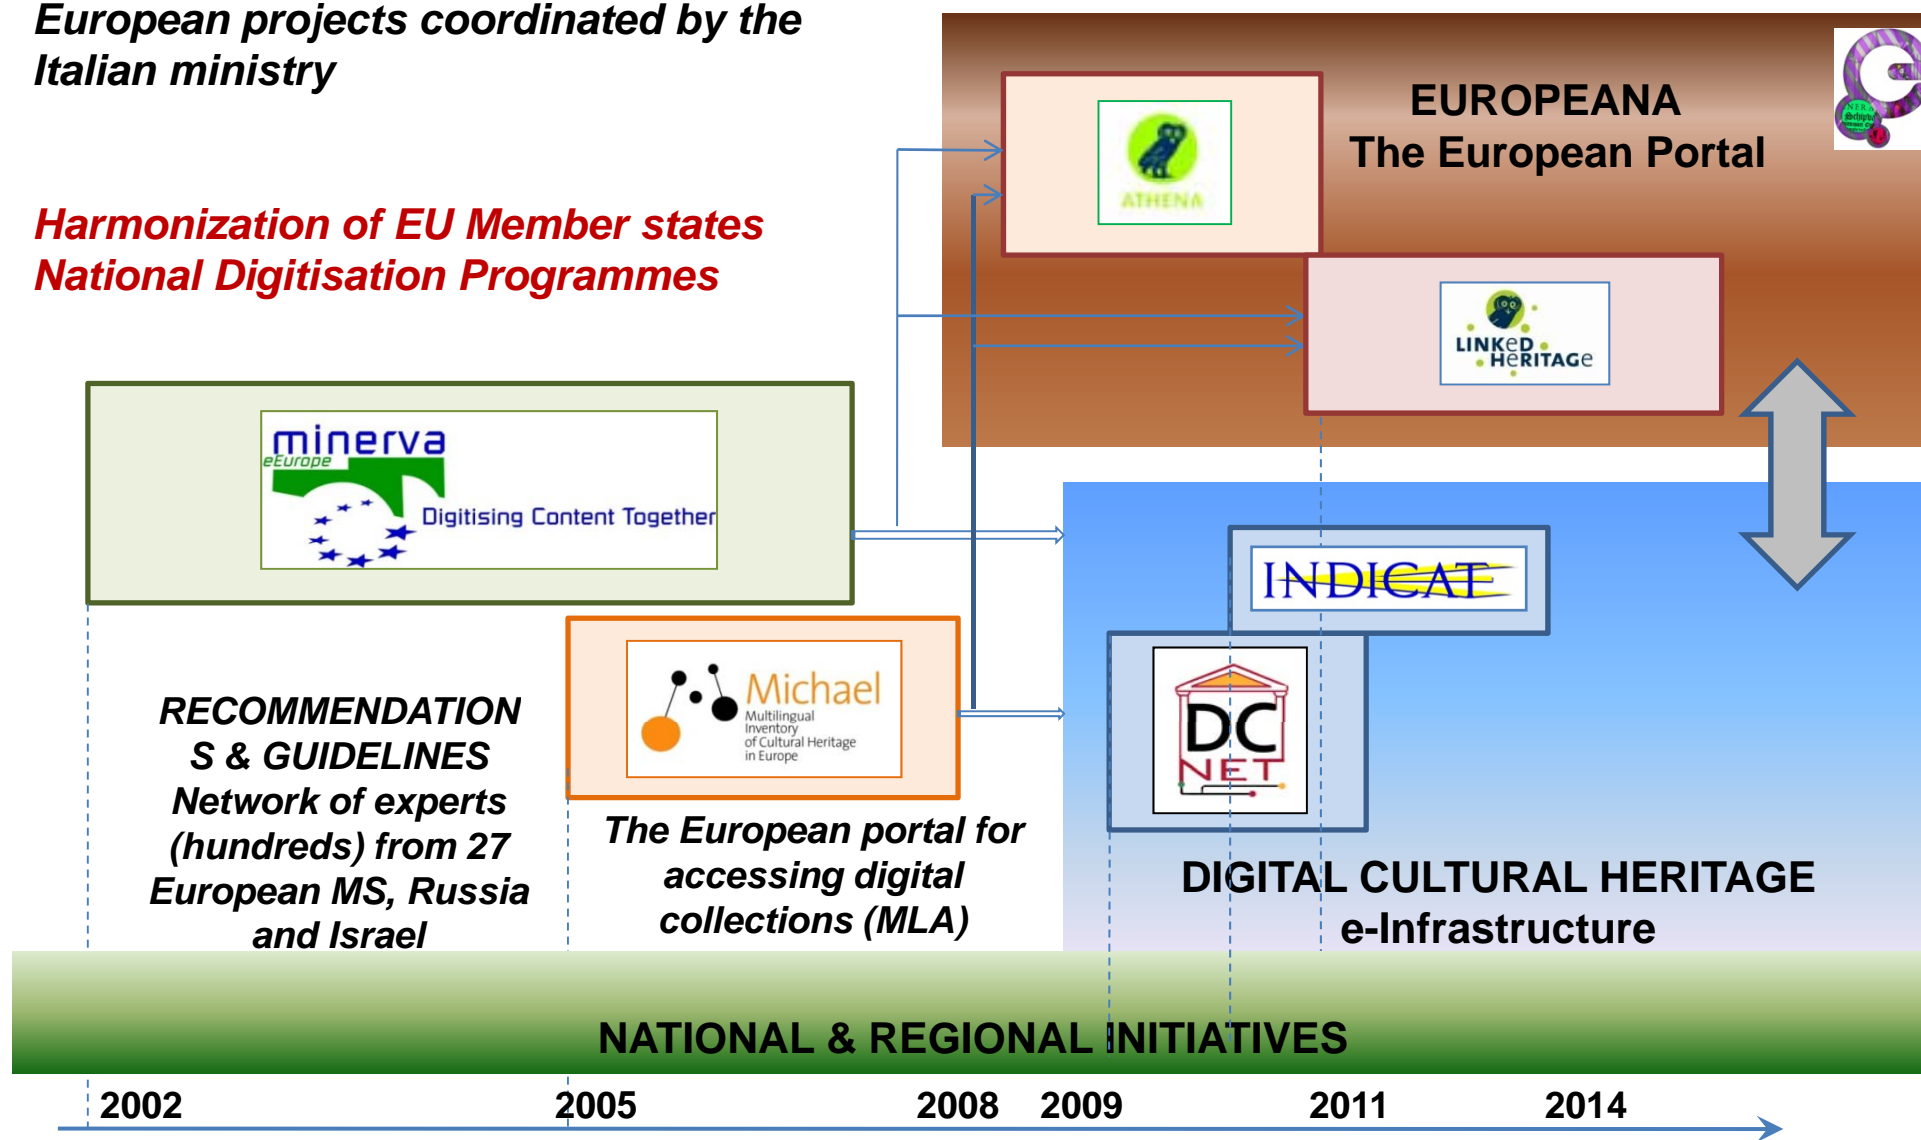

Infrastructure

- Big problems like long term preservation may be overcome thanks to the use of a e-Infrastructure dedicated to DCH
- This possibility is under investigation within DC-NET and INDICATE projects

Past, present and future scenario

European projects coordinated by the Italian ministry

*Harmonization of EU Member states
National Digitisation Programmes*

MINERVA keywords still alive

- Cross-domain approach (ALM)
- Sharing good practices across Europe
- Network of hundreds of experts
- Tight liaison with the national digitisation programmes
- Coordination among and within Member States
- Monitoring progress
- Promotion of digitisation standards

ATHENA

Access to cultural heritage networks across Europe

- A network of good practices financed by the *eContentplus* programme
- A 30 month project (2008-2011) coordinated by MiBAC
- A result of the MINERVA project
- **ATHENA involved:**
 - 20 EU Member States, Israel, Russia and Azerbaijan
 - 130 museums and other important cultural institutions in Europe

 United Kingdom
 Europeana

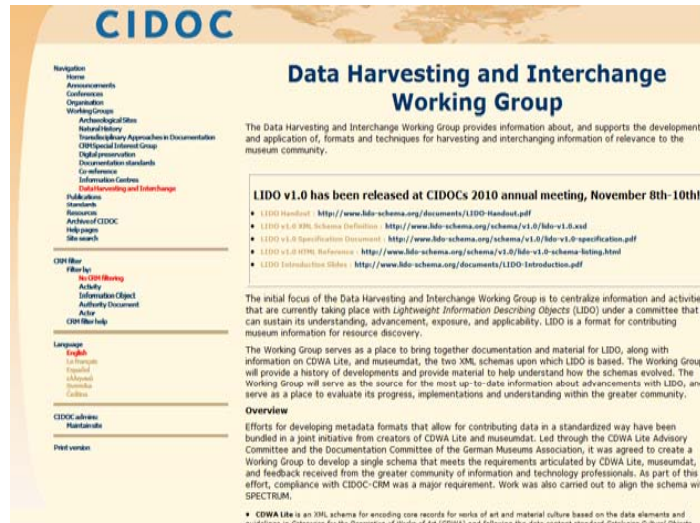

The mission

Encourage museums and other cultural institutions to share their cultural content with Europeana, supporting them in this process

European museums have different approaches in:
Cataloguing
Digitisation
Metadata standard use

international level in
December 2010 in Beijing
at the CIDOC International
Conference

LIGHTWEIGHT INFORMATION

DESCRIBING OBJECTS (LIDO):

THE INTERNATIONAL HARVESTING

STANDARD FOR MUSEUMS

- LIDO = Light Information [for] describing Objects
- Uses the conceptual reference model CIDOC (CRM)
- Includes elements for visualization, indexing and multilingualism
- Aligned with the Getty *CDWA Lite and Spectrum standards*
- Reacher than ESE (Europeana Semantic Elements)

Criticisms and lessons learned

CRITICISM

- Collections not fully digitised
- Technical problems
- Institutions' internal problems
- IPR problems not fully solved

DATA QUALITY

- Digital objects not always of good quality
- High level descriptive metadata, low quality images
- Lack of standards in descriptive metadata
- Good descriptive metadata without images (not accepted by Europeana)

LESSONS LEARNED

- Promotion of standards
- Quality check
- Workflow
- Training and helpdesk

Other results

PERSISTENT

IDENTIFIERS (PIDs):

RECOMMENDATIONS

FOR INSTITUTIONS

PERSISTENT IDENTIFIERS (PID)

ATHENA Journal

- 1: Think culture
- 2: Open gates instead closed doors
- 3: Collections development

<http://www.uic.edu/htbin/cgiwrap/bin/ojs/index.php/UC/issue/view/318>

The screenshot displays the Uncommon Culture journal website. At the top, the logo "Uncommon Culture" is shown in a grid format. Below the logo, a navigation bar includes links for HOME, ABOUT, LOG IN, REGISTER, SEARCH, CURRENT, and ARCHIVES. The main content area shows the breadcrumb "Home > Archives > Vol. 1, no. 1/2 (2010): Think Culture" and the title "Vol. 1, no. 1/2 (2010): Think Culture". A "TABLE OF CONTENTS" link is visible. On the right side, there is a "JOURNAL CONTENT" section with a search bar and a dropdown menu set to "All". Below this, a "Browse" section lists links for "By Issue", "By Author", "By Title", and "Other Journals". At the bottom right, an "INFORMATION" section lists links for "For Readers", "For Authors", and "For Librarians". The main content area also features a large image of a stone archway and a smaller image of an owl.

Europeana Resources

INDICATE
International Network
for Digital Cultural
Heritage e-Infrastructure

Linked Heritage

Best Practice Network

Started on 1/4/2011

- To contribute large quantities of new content to Europeana - cross domain
- To prepare for the enhancement of the quality of both new and existing Europeana content
- To demonstrate improved search, retrieval and use of Europeana content
- For the first time, the **public sector** participate together with the **private sector** to provide content to Europeana

Main objectives

1. First and most important focus: to provide 3 million new content to Europeana
2. Five key areas of development and innovation:
 - a) The use of linked data
 - b) Persistent identifiers
 - c) Metadata and standards (particularly for non-library sources)
 - d) Multilingual and cross-domain combination of terminologies
 - e) Engagement with the private sector (ONIX mapping)

Conclusions

All the themes discussed in this presentation will be further investigated in the DC-NET conference that will take place still in the Szecheny National Library on 23-24 June 2011

Digitisation of cultural heritage and long term preservation - the role of e-Infrastructures

See you tomorrow!

Thank you!

Rossella Caffo
